kaviya10504@gmail.com | +91-9080175253 | Erode, Tamil Nadu, India | linkedin.com/in/kaviya-s-a20064230

PROFESSIONAL SUMMARY

Results-driven Full Stack Developer with over 1 year of product-based experience building enterprise-grade ERP systems, HRMS platforms, and government portals. Proficient in React.js, Node.js, Express.js, Python, PHP (Laravel), and SQL/NoSQL databases. Skilled across the full product lifecycle, including responsive UI design, REST API integration, database optimization, and CI/CD deployment. Strong team collaborator with a track record of shipping scalable, production-ready applications.

TECHNICAL SKILLS

Frontend: React.js, HTML5, CSS3, JavaScript (ES6+), AJAX, Responsive Design

Backend: Node.js, Express.js, Python, PHP, Laravel, Java (basics)

Databases: MongoDB, PostgreSQL, MySQL - schema design, query optimization, CRUD

APIs & DevOps: RESTful API design and integration, Git, GitHub, CI/CD pipelines, Postman

Products Built: HRMS, ERP (Inventory, HR, Accounting), Library Management System, VOC Port Trust Permit System

PROFESSIONAL EXPERIENCE

Junior Software Developer - Ascent E-Digit Solutions Pvt. Ltd. | Aug 2025 - Present | Erode, India

Stack: React.js, Python, Laravel, MySQL, PostgreSQL, REST API, Git

- Built a full-scale HRMS product managing the complete employee lifecycle (leave, attendance, payroll, and multi-level approvals), actively used by 100+ employees and reducing manual HR effort by 35%.
- Developed a VOC (V.O. Chidambaranar Port Trust) permit issue and registration system using Laravel, enabling streamlined permit applications, approvals, and tracking with role-based access control and audit logging.
- Built a Library Management System covering cataloguing, member registration, issue/return workflows, overdue fine calculation, and inventory reports.
- Designed RESTful APIs with real-time data sync and admin dashboards; enforced modular architecture and Git version control across all products.

DevOps Engineer - Vyoog Information Pvt. Ltd. | May 2025 - Aug 2025 | Coimbatore, India

Stack: Java (basics), JavaScript, MySQL, PostgreSQL, Git, CI/CD

- Managed CI/CD pipelines and deployment workflows for a multi-module ERP product (Inventory, HR, Accounting) serving 50+ concurrent users.
- Implemented structured release management and environment-specific configurations, significantly reducing rollback incidents and deployment downtime.
- Coordinated with development and QA teams to align build, test, and release cycles, improving delivery cadence and product stability.
- Monitored production environments, identified performance bottlenecks, and provided detailed diagnostics to development leads.

Software Developer Intern - Vyoog Information Pvt. Ltd. | Mar 2025 - May 2025 | Coimbatore, India

Stack: Java, JavaScript, HTML5, CSS3, REST API, AJAX, PostgreSQL, MySQL, Git

- Improved backend processing speed by 30% by optimizing Java-based ERP modules for 50+ active users across inventory, HR, and accounting.
- Integrated REST APIs via AJAX for real-time updates, reducing data sync delays by 40% and cutting error rates by 20%.
- Designed responsive UIs with HTML, CSS, and JavaScript, boosting cross-device accessibility and user satisfaction by 25%.
- Managed secure data handling in PostgreSQL and MySQL, supporting 10,000+ records with zero data-integrity incidents.

Web Developer Intern - Ascent E-Digit Solutions Pvt. Ltd. | Jan 2025 - Mar 2025 | Erode, India

Stack: PHP, Laravel, MySQL, HTML5, CSS3, JavaScript

- Built dynamic, secure web applications using PHP (Laravel) and MySQL, improving data processing efficiency by 25%.
- Developed CRUD operations managing 1,000+ database records, streamlining internal content management workflows.
- Reduced data retrieval time by 30% through optimized queries and improved application reliability by 20% via secure data handling.

KEY PROJECTS

HRMS - Human Resource Management System | Aug 2025 - Present

Stack: React.js, Python, MySQL, PostgreSQL, REST API

- Enterprise HRMS managing the full employee lifecycle: onboarding, leave, attendance, payroll, and multi-level approvals for 100+ employees.
- Built real-time admin dashboards with role-based access across employee, manager, and HR admin tiers, reducing manual HR effort by 35%.

VOC - V.O. Chidambaranar Port Trust Permit & Registration System | Aug 2025 - Present

Stack: Laravel, PHP, MySQL, REST API

- Permit issue and registration system for V.O. Chidambaranar Port Trust, enabling online permit applications, document submission, approval workflows, and status tracking across port departments.
- Implemented secure authentication, comprehensive audit logging, SLA tracking, and department-wise dashboards for government officials.

Mini Task Tracker | Jul 2025

Stack: React.js, Node.js, Express.js, MongoDB, REST API

- Full-stack MERN task management app with CRUD functionality, optimized state management, and efficient API integration.
- Improved frontend load time by 40% through optimized component rendering and boosted user engagement by 30% with intuitive UX.

ERP - Inventory, HR & Accounting Modules | Mar 2025 - Aug 2025

Stack: Java, JavaScript, HTML5, CSS3, PostgreSQL, MySQL, REST API

- Multi-module ERP for 50+ users, achieving 30% faster processing speed, a 40% reduction in data sync delays, and responsive UIs across all devices.
- Optimized database queries and backend logic to support real-time reporting and seamless data flow across all modules.

EDUCATION

B.E. in Biomedical Engineering - Velalar College of Engineering & Technology, Erode | 2025 | CGPA: 9.08/10

CERTIFICATIONS

- MERN Stack - ETS Academy (2025): Full-stack certification covering React.js, Node.js, Express.js, MongoDB, and REST APIs; built an end-to-end e-commerce web application.
- C Programming - Browzone Infotech (2023): Strengthened core programming fundamentals, algorithmic thinking, and structured coding practices.
